0 of 0 review helpful A brief overview of what it means to be real and what it might mean to not be By Bernie Gourley  
If one has an inquisitive nature and finds oneself with a bit of time on one's hands one is likely to question reality eventually What is reality What does it mean to be real Yeah just like Morpheus's "How do you define 'real'?" How could we know if we weren't? Is matter real Are persons real Is time real This Very Short Introduction discusses what if anything is real by looking at a variety of arguments from philosophy physics and cognitive science Jan Westerhoff shows that the question what is real is not some esoteric puzzle that only philosophers ponder Scientists also ask this question when they investigate whether candidates for the fundamental constituents of matter are actually out there or just About the Author Jan Westerhoff is Lecturer in Philosophy at the University of Durham
