detected Locke's Moral Man:

Antonia Lolordo presents an original interpretation of John Locke's conception of moral agency one that has implications both for his metaphysics and for the foundations of his political theory Locke denies that species boundaries exist independently of human convention holds that the human mind may be either an immaterial substance or a material one to which God has superadded the power of thought and insists that animals possess the ability to perceive will and e concise tightly focused clear engaging and well written It contributes both to scholarship on Locke and to current debates M A Michael Choice fascinating Her picture of Locke's avoidance of metaphysics is I think an extremely significant on
