By Roberto Mangabeira Unger : The Religion of the Future religion is any cultural system of designated behaviors and practices world views texts sanctified places ethics or organizations that relate humanity to the future studies or futurology is the science art and practice of postulating possible probable and preferable futures and the worldviews and myths that underlie them The Religion of the Future:

How can we live in such a way that we die only once How can we organize a society that gives us a better chance to

be fully alive How can we reinvent religion so that it liberates us instead of consoling us These questions stand at the center of Roberto Mangabeira Unger s The Religion of the Future Both a book about religion and a religious work in its own right it proposes the content of a religion that can survive
