**By Morton White : A Philosophy of Culture: The Scope of Holistic Pragmatism** contemporary metaphilosophy what is philosophy what is philosophy for how should philosophy be done these are metaphilosophical questions metaphilosophy being philosophy of education prepared by samson gunga o oofafrican virtualuniversity universile

In this book one of America's leading philosophers offers a sweeping reconsideration of the philosophy of culture in the twentieth century. Morton White argues that the discipline is much more important than is often recognized and that his version of holistic pragmatism can accommodate its breadth. Going beyond Quine's dictum that philosophy of science is philosophy enough, White suggests that it should contain the word culture in place of science. He defends that White's picture of pragmatism is distinctive, original, and highly relevant in contemporary philosophy. The new book will be of interest both for systematic philosophers working on philosophy of language, philosophy of science, philosophy of law, or ethics.
