1 of 1 review helpful Not one of Albert s Best By S Bateman While I enjoyed this book I do not feel it is up to the standard of some of Mr Low s other work such as Zen and the Sutras The Iron Cow of Zen What Am I Hakuin s Chant in Praise of Zazen or Hakuin on Kensho I believe this is because most of the content centers around answering student s questions In this format the response is matched to the student s All readers both novice and longtime practitioners will encounter in this book new answers and new questions to the what why and how of Zen practice We ve all had moments in our lives when we ve thought Something is missing There must be more to life than this It is this sense that often brings people to the practice of Zen By turning to Zen they acknowledge that this something lies not in externals but rather in seeking to transcend desire hellip Low s advice on Zen practice reminds us that Zen practice is not psychotherapy but a genuinely spiritual practice The book includes a powerful and moving account of his own kensho experience An authentic Zen book mdash Victor Hori Asso
