Messenger of the Heart: The Book of Angelus Silesius, with observations by the ancient Zen masters (Spiritual Masters):

6 of 6 review helpful A Quiet Explosion of Thought By IamJack I have always been intrigued by the writings of Silesius and I had no idea what Frank s book would be about It turned out to be a well organized collection of Zen Taoist and Silesius poetry along with Frank s commentary A brilliant selection of verse that speaks volumes about the included poets and even greater volumes about Frank Recommended for anyone The timeless wisdom embedded in these humble rhymes is beautifully echoed by the observations of the ancient Zen masters which punctuate the text and in the haiku like drawing by Frederick Franck From the Publisher This is not a book for speed reading Each verse and every quotation from the Eastern Masters deserves being pondered in the heart A few minutes of pointed mindfulness add more to our life experience than several years of rushing while sleep
