By Douglas P McManaman : Principles of Metaphysics groundwork of the metaphysics of morals german

grundlegung zur metaphysik der sitten; 1785; also known as the foundations of the metaphysics metaphysics philosophy of science and the principles of reality solution to the problems of science with the metaphysics of space and motion rather than space and Principles of Metaphysics:

Metaphysics is the study of what it means to be It does not study any particular mode of being such as what it means precisely to be a living being or what it means precisely to be a human being etc Rather its object is to come to an appreciation for what it means for something ldquo to be rdquo insofar as it exists In other words it seeks to know the properties of being In coming to know this metaphysics allows us to know something fundamental about everythi
