6 of 6 review helpful steer clear of this book By John Dandell I think this book takes concepts from ninjutsu and pastes it onto the author's system for spirituality There are some ideas that I have no problem with and sometimes are insightful There is some ninja lore but it's mostly been expanded to fit new age stuff that is more american style It's not a ninja reference book If you are seriously interested in ninja you Explains how the initiatory practices of the Ninja can be used to achieve self mastery bull Uses the five human archetypes of lover seeker magus soul warrior and mystic bull Shows how to access kuji kiri the positive energy of the Ninja Godai to dispel fear disempowerment and soul fatigue The Ninja are a mysterious warrior elite said to be so spiritually advanced they knew the mind and will of God Regarded with awe as mast ldquo Ross Heaven is a spiritual warrior If you apply the lessons of this book to your life you will find the freedom and happiness you seek rdquo Howard G Charing Director of the Eagle rsquo s Wing Centre for Contemporary Shamanism
