11 of 12 review helpful Absolutely Stunning By D Fineman Why is not this book on every shelf On every list In depth care scholarship originality and insight this study is one of the best available on any major philosopher It rescues Schelling from an obscurity that seems possible only because in the main the study of philosophy is nothing other than intellectual fashion and weak works on hot topics garner more attention The whole of modern European philosophy wrote F W J Schelling in 1809 has this common deficiency that nature does not exist for it Despite repeated echoes of Schelling's assessment throughout the natural sciences and despite the philosophy of nature recently proposed but not completed by Gilles Deleuze Philosophies of Nature After Schelling argues that Schelling's verdict remains accurate two hundred years later Presenting a lucid account of Schelling's most intriguing and ambitious Philosophies of Nature After Schelling sets a new standard for Schelling scholarship More than this it is an important work of philosophy in its own right Radical Philosophy 144 July August 2007 Radical
